

Mad Science After School Programs

Spark your child's learning imagination!!!

Watts-Up!?

Learn about electricity, its properties and its role in natural phenomena. Make indoor lightning while conducting hair-raising experiments with our electro-static generator...take home your own static stick!!!

Sonic Sounds

Discover sounds, sound waves and the way household items can be used to create amazing movie effects. Use our multi-effects processor to reveal talent you never thought you had...perhaps a Canadian Idol in the making!!!!!!!!!!!!!!!!!!!!

Light

Find out about the fantastic properties of light and color. See rainbows in a new 'light'. Work with u.v. light and examine how our eyes see color and white light when motion is involved.

Harnessing Heat

Witness a mini rocket launch while learning the properties of heat. Make your own thermometer, learn how molecules act in different temperatures, and realize the differences in conductivity.

Magnetic Magic

Investigate the powers and daily uses of magnets. Test for electro magnetic fields and then use what you have learned to build your own electro magnet...

Optical Illusions

Build your own periscope while learning about optics, reflection and sight. Watch celebrity images change before your very eyes! Seeing is not always believing...

-*** Please return the attached form and fee to your school.
-*** Classes this year are limited to 17 per instructor
