

MILLERTON MINUTES

November 2009

Dear Parents;

We have come to the end of first term and our student progress reports have gone home. There are many factors that play a role in student success at school. Some of the factors we control at school: quality of instruction and differentiation of activities. Some factors the student controls: time on task, effort and commitment to quality work. Some factors you control at home: ensuring students come to school well rested, organized, and prepared to work. As always, we ask for your cooperation in ensuring that your child misses as little time as possible. When students leave school early or arrive late, valuable instruction time is lost. Students are responsible for the work missed, but they cannot make up for lost class time. Thank you for your cooperation in this matter.
